

April 16, 2025

Honorable Ann Tarpley, Mayor  
City of Hampton  
P.O. Box 400  
Hampton, GA 30228

RE: Phase II Municipal Separate Storm  
Sewer System (MS4)  
NPDES Permit No. GAG610000  
Compliance Inspection Report

Dear Mayor Tarpley:

On April 2, 2025, the Georgia Environmental Protection Division (EPD) conducted a compliance inspection of the City of Hampton's (City) stormwater management program. The purpose of the inspection was to ensure the City's administration of the program complies with the NPDES Permit requirements. We have attached a copy of the completed inspection report to this letter.

We transmitted a draft inspection form to the City on March 10, 2025. The City provided additional information in a March 10, 2025, email. On April 2, 2025, EPD held a conference with Mr. Justin Conner, Public Works Director, Mr. Tony Kemp, Stormwater, and additional City staff to discuss the compliance inspection form and conduct field inspections. Based on the additional information submitted by the City, the discussion, and the field inspections, it appears that the City is properly administering the stormwater management program.

Thank you for your cooperation in this matter. If you have any questions, please contact me at 470-607-2604 or [hailey.rinehart@dnr.ga.gov](mailto:hailey.rinehart@dnr.ga.gov).

Sincerely,

Hailey Rinehart  
Environmental Compliance Specialist  
Municipal Stormwater Team

cc: Ms. Wanda Moore, Director of Community Development (email only)  
Mr. Justin Conner, Public Works Director (email only)
