

City of Hampton

Power Cost Comparison Report - 2025

Prepared for Citizens of Hampton

The attached report from the State of Georgia Public Service Commission provides a transparent comparison of electric rates across Georgia's 92 electric utility systems. The City of Hampton is proud of the fact that our electric customers are provided not only excellent service and reliability but enjoy some of the lowest electric rates in the entire state of Georgia.

Please find attached the 2025 Utilities Rate Study provided by the Public Service Commission. In this study you will find that the **City of Hampton ranks as the 16th lowest electric service provider in the entire state of Georgia.**

The City of Hampton provides very rapid responses to weather-induced power outages. The average duration of a power outage is less than 1.5 hours before restoration, which is far below State and National averages. The City of Hampton remains committed to providing reliable and competitively priced electric service to our residents.
